

That is what we have been elected to do and that is what we should demand of ourselves. It is time for a new agenda here in Washington, one that focuses on the issues of all Americans, not just the few.

#### HONORING JAMES P. GREENE

(Mr. BARRETT of South Carolina asked and was given permission to address the House for 1 minute.)

Mr. BARRETT of South Carolina. Mr. Speaker, as we take time to reflect this week on D-Day and World War II, we reflect on the men who proudly fought for the ideals on which our country was founded, freedom and a democratic way of life. On December 7, 1941, our Nation was attacked, the worst attack on American soil until September 11, 2001, and that day our Nation was at war.

Mr. Speaker, a constituent of mine, Mr. James P. Greene from my home county of Oconee County, South Carolina, was aboard the USS *Detroit* in Pearl Harbor on that fateful day. Fortunately, Mr. Greene survived the attack, and I am proud to say he continued on in service to his country, spending the entire war in the Pacific Theater. In fact, Mr. Greene also served in the Korean War, and his entire naval career spanned from 1939 to 1961.

I would like to say to Mr. Greene and countless other World War II veterans just like him listening today, as a veteran who served after you and as an American citizen, thank you. Thank you for your service and thank you for your sacrifice. Our Nation is forever in your debt.

#### MISGUIDED REPUBLICAN PRIORITIES AND ENERGY

(Ms. SOLIS asked and was given permission to address the House for 1 minute.)

Ms. SOLIS. Mr. Speaker, today I rise because the misguided Republican priorities are hurting the pocketbooks of America's working families. Consumer inflation has risen at a rate of 3.2 percent in just the past 3 months, well above what the Federal Reserve is comfortable with. Gas prices continue to rise over \$3.50 in my district and more. Yet, Republicans have prioritized legislation to benefit wealthy oil companies. These legislative priorities tie the hands of our States and risk public health, all to protect companies which can afford the give their executives \$400 billion retirement packages.

This administration and this body continue to delay real action to help working-class families. I believe that we should increase production of alternative fuels, rescind the billions of dollars in taxpayer subsidies, tax breaks, and royalty relief given to big oil and gas companies, and work toward making America energy independent by the year 2020. America's working families must be our priority, not oil and gas companies.

#### EXPRESSING UNWAVERING CONFIDENCE FOR UNWAVERING AMERICAN TROOPS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, every day, U.S. troops risk their lives in Iraq to perform a mission which improves the national security of our country. Their sacrifices are immeasurable and these brave men and women remain dedicated to facing terrorists on the streets of Iraq so that we do not have to face them at home.

Last week, I had the fortunate opportunity to visit Iraq for the sixth time. While visiting with military leaders, Iraqi government officials and U.S. troops, I was inspired to learn of the tremendous progress occurring throughout this new democracy. Iraqi security forces continue to gain greater control over their country. In only 7 months, these forces have expanded from two brigades and 19 battalions to 14 brigades and 57 battalions.

As American troops and Iraqi security forces demonstrate strength on the battlefields of Iraq, we must also demonstrate our unwavering confidence in their mission for victory in the global war on terrorism.

In conclusion, God bless our troops and we will never forget September 11.

#### ON THE REFINERY PERMIT PROCESS SCHEDULE ACT

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DAVIS of California. Mr. Speaker, American families are facing record-breaking prices at the gas pump this summer. But apparently, the priority of Republicans in Congress is to keep providing giveaways to wealthy oil companies.

This week, Republican leaders are bringing another unnecessary piece of legislation to the House floor in an effort to make it seem like they're meeting the challenge of high fuel prices. As most of us know, however, appearances can be deceiving.

Let's be clear about what this Republican refinery bill won't do. Just like the Republican push to drill for oil in Alaska, today's refinery bill won't take one penny off high gas prices. Not one penny.

Let's also be clear about what this Republican refinery bill will do. Quite simply, it gives rich oil companies free real estate to build refineries.

And what if the free land happens to be in your backyard? What if a refinery violates local environmental concerns? What if your neighborhood objects to having a refinery in your backyard? According to this bill, well, you're just on your own.

If you care anything about alternative energy development, State and

local rights, the environment, or American families, vote "no" on this misguided bill.

#### RAPE TREES

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Ripped from the bodies of unwilling women, undergarments cling to branches of a tree just a few feet from the lawless U.S.-Mexico border. Dozens of pairs of underwear thrown there by rapists.

These are called rape trees. Each pair is a trophy from a woman that was smuggled into the United States. Victims that are heard screaming in the desert. They are raped, even gang raped by illegal human smugglers, then forced into silence.

These trees are a warning. Illegal immigrants evade our borders but crime doesn't evade them. Some become criminals. Some become victims. They are raped, robbed and murdered by other illegals. Human smugglers and brutal criminals who then claim other victims.

More than 70 percent of their rapes, murders and child sex crimes are against Americans. One expert who studies sex crimes says about a hundred illegal sex offenders cross the border every day, leaving thousands of victims every year.

Rape trees are a warning to illegals not to talk. They should be a warning to Americans as well: to shout out against illegal entry and human smuggling.

And that's just the way it is.

#### GOP DO-NOTHING CONGRESS REFUSES TO LEAD

(Ms. SCHAKOWSKY asked and was given permission to address the House for 1 minute.)

Ms. SCHAKOWSKY. Mr. Speaker, the do-nothing Republican Congress continues to move along at a snail's pace, refusing to address any of the tough decisions that Americans so desperately want this Congress to tackle. Today is the 160th day of the year, but only the 40th voting day here in the House. Imagine that. It is no wonder that the American people have lost faith in Washington.

The House Republican leadership has simply run out of ideas. Rather than proposing a forward-looking energy initiative, House Republicans continue to push Big Oil's tired old ideas, ideas that will do absolutely nothing to lower gas prices for the American consumer.

Rather than explore ways to help Americans better afford ever-increasing health care premiums, House Republicans will once again follow the playbook of the insurance industry when, later this month, they will propose health care bills that only help enrich insurance companies.

Mr. Speaker, time is running out for the House Republican do-nothing Congress to actually provide some real

leadership and some new ideas. The American people are waiting.

#### HOMELAND SECURITY FUNDING

(Mrs. KELLY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. KELLY. Mr. Speaker, I rise today to express the shock, disgust and frustration that I have felt since the Department of Homeland Security slashed homeland security money for New York and increased funding for other smaller, rural cities across America.

For many months since 9/11, Congress has been working to convince this administration that a risk-based distribution formula is the right way to protect Americans in cities like New York that are the most vulnerable to terrorist attacks. If the mission at Homeland Security is truly to protect America, then Department of Homeland Security funding should never be a pork-barrel matter. Yet the lack of common sense displayed by cutting New York's funding by 40 percent, while increasing the funding of nearly every other city, demonstrates that the threat is clearly not foremost in the minds of the DHS.

This is a slap in the face to all of us who experienced 9/11 in New York. We need to look no further than the 9/11 Commission report to understand that we must dedicate our resources to areas like New York where the risks are the highest and where multiple terrorist attacks have already occurred.

Our constituents ask us to spend taxpayer money wisely. By cutting first responder funding for New York and instead sending it to other areas of the country that are not at as much risk, the administration has failed terribly in its responsibility to spend taxpayer dollars wisely. If truly committed to securing our homeland, the administration must work with New York and immediately correct this horrendous blunder.

#### ON INTRODUCTION OF THE PLUG-IN HYBRID ELECTRIC VEHICLE ACT OF 2006

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, today I introduce the Plug-In Hybrid Electric Vehicle Act of 2006, H.R. 5538. This bill will help reduce our Nation's dependence on foreign sources of oil by promoting plug-in vehicles and advancing new vehicle technologies. It also establishes a partnership between private and public entities to focus on electric drive technology.

Americans are concerned about high gas prices, our dependence on foreign oil, and global warming. These cars have the potential to alleviate all three problems. The Federal Government needs to ensure that the research

and development of alternative energy vehicles continues. Congress has a responsibility to help promote this new technology, and I am pleased that this bill already has significant bipartisan support.

#### HUGH MORTON TRIBUTE

(Mr. MCHENRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCHENRY. Mr. Speaker, last week North Carolina lost one of its leading citizens and I lost a treasured constituent. Hugh Morton was, in all senses of the term, the "Keeper of the Mountain." As owner of Grandfather Mountain, he fought to protect and preserve its wildlife and scenic beauty for future generations.

Hugh Morton was also our State's leading and most acclaimed photographer, recording the history of the State of North Carolina for the past 70 years. Whether it was bald eagles soaring over his beloved Grandfather Mountain, or Michael Jordan soaring over the rim at Chapel Hill, Hugh Morton captured it all in breathtaking fashion.

He photographed a young aspiring actor in the 1950s named Andy Griffith and chronicled the legendary U.S. Senate race in 1984 between Senator Helms and Governor Hunt. From the mountains to the coast, Hugh Morton photographed all our State has to offer.

North Carolina lost one of its greatest promoters and advocates, Mr. Speaker, but fortunately his legacy lives on in more ways than we can imagine.

We will miss Hugh Morton.

□ 1245

#### PROVIDING FOR CONSIDERATION OF H.R. 5521, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2007

Mr. BISHOP of Utah. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 849 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 849

*Resolved*, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 5521) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2007, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. The bill shall be considered as read. All points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are

waived. Notwithstanding clause 11 of rule XVIII, no amendment to the bill shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Utah (Mr. BISHOP) is recognized for 1 hour.

Mr. BISHOP of Utah. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts (Mr. MCGOVERN), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

House Resolution 849 provides for a structured rule with 1 hour of general debate equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. It waives all points of order against consideration of the bill, and provides for one motion to recommit.

This rule also makes in order, as a structured rule, every amendment brought forward to the Rules Committee, so by anyone's standard this resolution would be designated as being very fair.

Mr. Speaker, the underlying legislation, H.R. 5521, funds the legislative branch of our Federal Government, including Congress, the Capitol Police, the Congressional Budget Office, the Architect of the Capitol, the Capitol Visitor Center, the Library of Congress, the Government Printing Office, and the Government Accountability Office.

As one wise Member of our body said, the \$3 million provided in this bill to operate the legislative branch agencies under the jurisdiction of the House seem straightforward and fiscally responsible. I think if we overlooked this appropriations bill, which was passed in a bipartisan way, the two words you would say are an increase close to the cost-of-living adjustment and always less than what was requested. We requested a fiscally responsible bill.

For example, the overall budget is \$230 million less than the President's budget. The House of Representatives is funded at \$19 million less than the budget request. The Capitol Police gets \$12 million more than last year, but \$36 million below the request. The CBO is \$1 million more than last year, but \$1
